

PRO SUZUKA 2

WRIGHT PRO SUZUKA 2

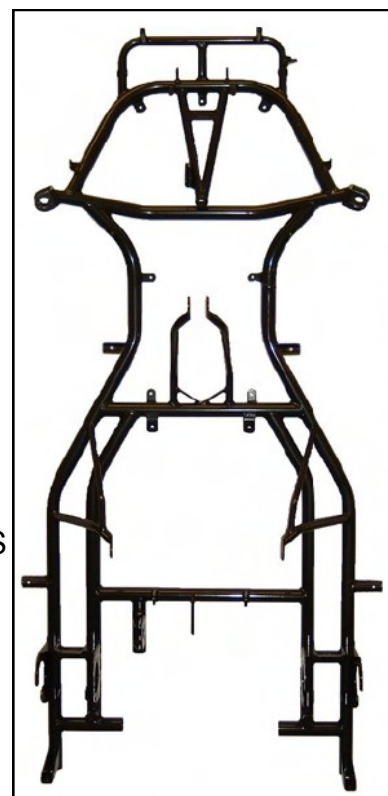

Arguably the most successful single chassis that Wright karts have ever produced. With multiple club, regional, national and endurance titles to its name, including the prestigious Le Mans 24 hour race. This demonstrates the durability and outright speed the Pro Suzuka 2 possesses. With a number of tweaks and modifications made for the 2008 season, the Pro Suzuka 2 looks to continue the success. The Pro Suzuka 2 is able to accommodate both the single and double engine versions of the Pro kart classes.
